Project Title: Piano
Project Description: The piano workshops reinforced good technique and sight-reading habits. An introduction to some basic harmonic theory opened up an avenue for individual and group improvisation. Besides the fun of improv, students learned some extended piano technique (after all, there’s more than one way to play a piano!). Students used these skills to expand upon the foundation they already have in order to widen the scope of possibility for creative and inspired musical practice.

Project Title: Vocal
Project Description: The vocal workshops introduced multiple modes of vocal music production, while continually reinforcing proper warm-up and breathing exercises. Sight-reading and solfège was a constant activity, as students also learned extended vocal techniques, basic conducting skills, and even compose their own pieces. The goal was to learn how to gain greater control of our vocal instrument (the body), while allowing ourselves to let our creative impulses (the mind) inspire new grounds for performance.

- GRADUATE FELLOW BRENDA VARDA

Project Title: Performance Portraits: Images, Writing and Spoken Word
Project Description: Students worked with digital photography and creating writing to create a multimedia presentation that culminates in a live performance. Using examples from contemporary young poets and writers, students created, rewrote and edited short spoken-word self-portraits that examined their current relationships to the world around them. Students were encouraged to rethink how they see themselves in relation to physical space, current events, personal perspectives, and relationships. With digital photography, students expanded their written work with self-portraits and captured images. Students were encouraged to look at themselves beyond the usual representations that they live with. The last component was an exploration of using language on the stage: exploring speech and sound through their own words. The final presentation incorporated the three components in a live performance of their work.

Project Title: Constructing Theatre From the Actor On Up
Project Description: This workshop introduced students to how theatre is created and invited the students to experience producing a short “play” with attention to the roles of writers, actors, designers and audience members, with particular focus on how the live performer brings a story to life. The workshop included body and voice improvisatory exercises, discovery of a theme and story, and learning about the inner workings of a play from the standpoint of the many who participate in its creation.

Fellow’s Biography: Brenda Varda is a graduate student in the MFA Creative Writing for the Performing Arts at UC Riverside, and continuing her professional work in performance, writing, and music.
