GLUCK FELLOWS PROGRAM OF THE ARTS AT UC RIVERSIDE

ART
Creative Writing
DANCE
History of Art
MUSIC
Sweeney Art Gallery
THEATER
UCR/California Museum of Photography

THE GLUCK FELLOWS PROGRAM OF THE ARTS AT UC RIVERSIDE PROVIDES A LINK BETWEEN EIGHT UNIVERSITY DEPARTMENTS – ART, CREATIVE WRITING, DANCE, HISTORY OF ART, MUSIC, THEATRE, SWEENEY ART GALLERY AND THE UCR/CALIFORNIA MUSEUM OF PHOTOGRAPHY – AND THE GREATER RIVERSIDE COMMUNITY. WE CARRY OUT THE MISSION OF THE MAXWELL H. GLUCK FOUNDATION FOR THE PUBLIC TO PARTICIPATE IN AND EXPERIENCE THE ARTS FREE OF CHARGE.

“Our students have gained an appreciation for various forms of art and creativity. They have attained knowledge they did not possess before, and they had fun while learning! They were given ‘free access’ to cultural and artistic sensibilities that they may not even realize the impact of yet! Many were inspired to create, learn and experience art!”

Using Masks in Theatre

Gluck Fellows are talented UCR Graduate, Undergraduate and Faculty of UCR who create and present programs and performances based upon their research or artistic expertise in places the public can go free of charge. Each year, the Gluck

Fellows Program sends hundreds of free presentations, workshops and performances into K-12 schools, community centers, eldercare facilities and arts institutions within a twenty-minute drive of UCR.

“[The students] enjoyed reading into Hopper’s painting and trying to decipher what was behind the imagery. They also enjoyed learning a new way to present information that is cutting edge and interesting.”

*-Ben Necochea, Teacher
Canyon Springs High School*

Making podcasts about Edward Hopper

Gluck Day of the Arts at UCR for High Schools

From: Susan J. Rainey, “The Whole Picture: Arts Reside in Riverside Schools,” The School Administrator, March 2008 Number 3 Vol. 65

“Research shows that the arts help students develop skills that will help them to be successful in school and later in life. Through the arts, students learn discipline and teamwork. They expand their knowledge of every subject area, from language arts to math and

science. They also build self-esteem. ... It is our job as educators to make sure that we nurture a love of art and beauty in our students that will last a lifetime so that art will remain integral in their lives, even after they grow up. This is an essential step as we seek to shape

our students into well-rounded, thoughtful individuals who are making history, not just reciting it.”

– Dr. Susan Rainey,
Retired Superintendent Riverside Unified School District,
Educational Consultant
